B. Curved Extra Fine Tip Tweezer

6.25" long curved tip.

U924-C \$7.90

C. Offset Fine Tip Tweezer

6.5" long off set.

U924-B \$9.90

D. Straight Tip Tweezer

7.75" long.

U979 \$6.30

SPOON DROP DECORATING SPOONS

Inspired by the tip of a classic fountain pen these spoons add a new dimension to plating. The DecoSpoon is a cleverly designed set of saucing spoons that give you the ability to draw intricate lines, patterns, and they even allow you to write legibly with a variety of sauces. Turn a plate into your canvas and keep your service ware looking fresh and new. You can create wide strokes, thin strokes, overlays, and dots with this innovative set.

Use them like you would any writing instrument. Make sure the sauce is flowing, but with body; similar in viscosity to a crème anglaise. Keep your sauces in a small container making sure the head of the spoon is not fully submerged. This will insure you do not have excess sauce flowing into your design. Fill the tip of the spoon with a small amount of sauce. Hold the spoon upright with the tip touching the plate while you create your desired pattern. Made in France. Stainless steel.

Set includes:

- 2 DecoSpoons.
- 1 Small teaspoon spoon size, length 7.5" length.
- 1 Large tablespoon size, length 9" length).
- Stainless steel spoon.
- Boxed set.

Wooden handle.
B110 \$19.90

K702 \$87.70

Create beautiful chocolate with this high quality polycarbonate and stainless steel magnetic mold. The mold consists of two pieces: a polycarbonate upper with strong magnets that securely hold removable base made from a mirror finished stainless steel sheet. The two piece construction gives you the added benefit of creating a variety of looks by lining the bottom of the mold with a chocolate transfer sheet. Simply place a transfer sheet between the stainless steel and polycarbonate frame, fasten them together and fill with tempered chocolate as you would any other mold. Each mold measures 5.30" width x 10.85" length x 0.95" height.

These molds are designed and crafted in Belgium, one of the chocolate Mecca's of the world. Made for the professional pastry chef and chocolatier these molds have highly detailed designs and are constructed of food safe clear polycarbonate that is rigid and will not flex or bend. Each mold measures 11" width x 5.5" length x 1" height.

CHOCOLATE MACHINES

Chocolate Tempering Machine Commercial

A simple way to melt, temper and hold chocolate. Hot air melts chocolate and then maintains it at a proper temperature. A digital display (in Celsius only) and a thermostat offers temperature range of 20 to 60 °C. The stainless steel frame is insulated for efficiency and temperature regulation. Easy to remove and clean stainless steel pan with a 26 pound (12 kg) capacity. This machine can also be fitted with stainless steel probe (item number P394-P, sold separately) for a more accurate temperature reading. Made in France. 110 volts, 300 watts, heat source is electric coil. **P394 \$1,699.00**

Probe for P394 Chocolate Tempering Machine Commercial

This probe works in cooperation with Chocolate Tempering Machine (See above). It conveniently hooks up to the machine and allows you to read the actual temperature of your melted chocolate in the digital display rather than the machines set air temperature.

P394-P \$119.00

MeltinChoc Chocolate Melter

This chocolate melter/warmer has an accurate thermostat that enables you to melt and maintain chocolate in a tempered state. The outer construction is thermo-resistant plastic, with a removable stainless steel pan.

P112-9 \$949.00

Motor: 110 volts, 200 watts.

Temperature range: 0 to 140 °F (0 to 60 °C).

Capacity: 9 liters, 9.5 quarts.

Dimensions: 17" length x 15" width x 5.5" height.

Table Top Chocolate Temperer

Thermostat controlled heat unit melts up to 8 lbs of chocolate. Cooling fan, one stainless steel bowl and plastic scraper included.

P110 \$795.00

Motor: 110 volts.

Dimensions: 12.5" height x 14.25" width.

Warranty: Six month warranty from manufacturer.

Extra Bowl. Stainless steel.

P110-B \$49.50

Extra Scraper. Plastic.

P110-S \$28.60

KREBS ELECTRIC FOOD SPRAY GUN

Krebs Electric Food Spray Gun - 120 Watts

The Krebs LM45 is the perfect electric food spray gun for chocolate. Wielding 120W of spraying power, this high-performance sprayer is able to discharge even the most viscous materials, making it the perfect chocolate spray gun. Or use it for jams, sauces or other thick substances. Also the model to use for spraying large volumes from a large floor container, by attaching the Krebs extension tube (sold separately). The LM45 does what brushing and paint guns can't. This food-safe-certified handheld gun provides fast and accurate greasing of baking sheets and tins. Or use it for any number of materials and applications.

Fast, economical, accurate and food-industry approved, it's the alternative to the brush or non-food-regulation-compliant paint gun. An excellent time saver, the LM45 requires minimum work effort while yielding the highest delivery. Thick to fine spray finish, with excellent material distribution and economical use of material.

Rated power: 120W.

Delivery rate max (water): 350 g/min. Tungsten carbide pump piston and pump cylinder. 700ml container.

Includes: Fan Nozzle, Round Jet Nozzle R6, Bent Nozzle Extension, and Container with Lid.

P242 \$369.90

Krebs Electric Food Spray Gun - 60 Watts

The Krebs LM25 is the perfect handheld gun for spraying most low to medium viscosity liquids including melted butter, oil, chocolate, jelly, sauces, marinades, egg wash. Grease sheet pans and molds with ease. Fast and accurate, this is the perfect alternative to a brush or spatula. Optimal spraying of flat surfaces and objects like baking trays with the flat-jet-nozzle. The bent nozzle extension is ideal for spraying upwards, downwards or on edges and slants. Thick to fine spray finish, with excellent material distribution and economical use of material, yielding quick return on investment.

Rated power: 60W.

Delivery rate max (water): 280 g/min. Tungsten carbide pump piston and pump cylinder. 700ml container.

Includes: Fan Nozzle, Round Jet Nozzle R8, Bent Nozzle Extension, and Container with Lid.

P241 \$324.90

- These sprayers are certified food safe by Laboratory of Zurich, each component designed to comply with EU Food standards and US Food and Drug Administration regulations.
- Simple to use.
- Compressed air not required.
- Easy to clean and maintain with unique Krebs service screw.
- The noise level of these appliances can exceed 85 dB(A).

Chocolate Sprayer

Turbine powered system for high air volume and low pressure. The result is a finer spray with less overspray. The nozzle on the hand gun has adjustable pattern size (0.25" to 6"), 3 different shapes, and adjustable air control. Great for showpiece and production work. 115 volts, 10 amp, 15 foot hose.

P240 \$298.00

elBulli 2005-2011**A Journey Inside the Creative Process of the World's Greatest Chef**

elBulli 2005 - 2011 captures a vital moment in culinary history, when Ferran shifted the way cuisine is codified and altered the way we think about the creative process. With one volume for each of the seven seasons the restaurant was open between 2005 and 2011, the collection features each of the over 750 recipes created during the period with texts written, edited and extensively tested by Ferran and his team.

Each of the first six volumes comprises a catalogue of color photographs for each dish developed in the corresponding season accompanied by detailed recipes explaining how to create every component. There are notes on hard to find ingredients, techniques, finishing and presentation. Following elBulli's unique menu structure, the recipes are divided by courses: cocktails, snacks, tapas, pre-desserts, desserts and morphings.

The seventh volume, Evolutionary Analysis, focuses on the creative evolution of the restaurant, tracking key discoveries and products, and examining the influences and creative methods that were prominent during each of elBulli's seasons.

A Work in Progress Journal, Recipes and Snapshots
By Rene Redzepi

An unprecedented insight into the inner workings of restaurant Noma and its highly creative team of chefs.

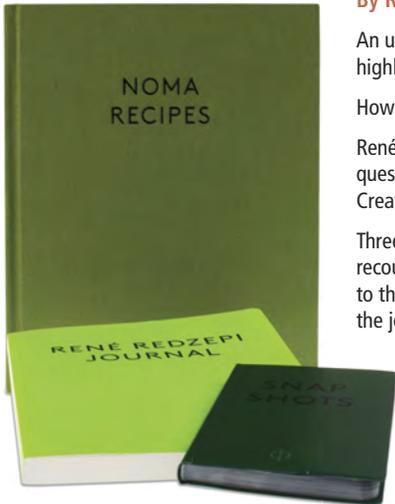

How do you achieve greater creativity at the world's best restaurant?

René Redzepi committed to writing a journal for an entire year to reflect on this question and the result is *A Work in Progress: Notes on Food, Cooking and Creativity*.

Three books in one, a journal, recipe book and flick book, *A Work in Progress* recounts the day-to-day life at Noma – from the trials of developing new dishes to the successes that come with winning the 50 Best Restaurant award. While the journal is the book's heart, it is supported by the recipe book containing 100 brand new recipes and the flick book of 200 candid images which provide a stunning, and often humorous, insight into the inner workings of the restaurant and its talented team of chefs.

Reflective, insightful and compelling, René interweaves observations on creativity, collaboration and ambition making *A Work in Progress* of interest to food lovers and general readers alike.

L1832 \$43.70

**El Celler De Can Roc****By Joan Roca, Josep Roca and Jordi Roca**

In this new book the Roca Brothers offer a direct account of the secrets of the San Pelligrino 2013 pick for "Best Restaurant in the World": El Celler De Can Roca. This book elaborates on over 25 years of creative processes, the values that have been the foundation of the career of the Roca Brothers, and the most representative recipes of the restaurant's history.

This reference book for El Celler is a large-format publication with an original, high-quality finish, fully illustrated in color with images by the prestigious photographers David Ruano and Francesc Guillamet. It also includes a diary on a day spent at El Celler written by author Josep Maria Fonalleras as well as an illustrated catalog of the 245 most outstanding dishes in the history of El Celler.

SOUS VIDE LOW TEMPERATURE COOKING

The term Sous Vide literally translates into “under vacuum”, and has been adopted as the name for a cooking method that relies on precise temperature control. Foods cooked in this method are typically vacuum sealed in a non-reactive plastic pouch and heated in a water bath at a specific temperature until a desired level of doneness has been reached. This exacting technique provides unmatched control and consistency that cannot be found in other cooking methods.

A

Chef Series Thermal Circulator

The professional kitchen standard.

P396 \$799.00

- Innovative new features and award winning design deliver outstanding results under the toughest conditions and demands.
- Precisely controls up to 30 liters (8 gallons).

B

Classic Series Thermal Circulator

The legendary machine that changed kitchens forever.

P352 \$1,128.00

- The breakthrough innovation that helped pioneer the new realm of Sous Vide cooking.
- The standard behind many cookbooks and ground-breaking recipes.
- Precisely controls up to 30 liters (8 gallons).

C

Creative Series Thermal Circulator

Perfect for occasional or lower volume applications.

P399 \$399.00

- Ideal for recipe testing, culinary students or a backup unit.
- An excellent, low cost option.
- Precisely controls up to 20 liters (5.3 gallons).

A

B

Fusion Chef Pearl Thermal Circulator

The Pearl thermal circulator, guarantees a temperature stability of ± 0.05 °F (± 0.03 °C) in vessels or cooking pots up to 61 quarts. The integrated safety protection grid prevents the vacuum pouch from touching the heating coil, pump and the float. The strong circulating pump ensures optimum temperature stability and even distribution of water in the bath. This has a positive effect on the heat-up times when chilled pouches of foods are put into the bath. With its especially designed mounting bracket the Pearl can be placed on any vessel or cooking pot quickly and easily. The integrated timer allows for easy monitoring of the remaining cooking time.

P400 \$1,099.00

Fusion Chef Diamond Thermal Circulator

The Diamond thermal circulator has all of the features of the Pearl Thermal Circulator (P400) plus additional innovative functions like pre-programmed memory keys for meat, fish, and vegetables, and calibration functions.

When used in conjunction with the Core Temperature Sensor (P405-S), the Diamond thermal circulator emits an alarm to indicate that your selected core temperature has been reached. The timers can be started separately from each other so you have optimum control. The timer that will expire next is shown continuously. A visual and acoustic signal informs the chef when the desired time has passed. The timer then goes into the minus range so you always know the total time that the food has been cooking. Each of the pre-programmed memory keys (fish, meat, and vegetables) is set to five practical temperature values that can be edited to fit your particular needs.

The Diamond thermal circulator has the ability to data log time and temperature with the addition of the fusion chef software and interface cable making HACCP data logging straight forward and easy to manage. Diamond has extensive functionality that makes it an excellent addition to any professional kitchen.

P405 \$2,099.00

COMPARISON TABLE

Core Temperature Sensor for Fusion Chef Diamond

Highly precise insertion sensor (with a fine stainless steel measurement tip and a rubber-coated, waterproof grip). When used in conjunction with adhesive sealing strips, this thin, 0.05 inch sensor will minimize the effect on the vacuum. May be used with Diamond Series Thermal Circulator (P405) only.

P405-S \$358.00

MINIPACK CHAMBER VACUUM SEALERS

These Minipack chamber vacuum sealers are equipped with innovative, state-of-the-art features, such as customizable programming and integrated label printers (on select models). Smart design, easy to use controls, a self-diagnostic system, strong performance and low maintenance make these machines highly desirable in professional kitchens and for Sous Vide applications. Minipack machines are built with rugged and durable housings designed to last in kitchen environments.

Minipack MVS 31XP Chamber Vacuum Sealer with Printer

The 31XP is equipped with an integrated product label printer and a water resistant digital display featuring user-settable preferences and up to 100 customizable programs. The electronic millibar sensor precisely measures the vacuum level and triggers the chosen sealing and de-evacuation modes.
20" length x 15.50" width.

P412-XP \$2,561.00*

Minipack MVS 31X Chamber Vacuum Sealer Without Printer

P412 \$2,211.00*

Minipack MVS 20 Chamber Vacuum Machine

Take advantage of the benefits of vacuum sealing - even if you have a small or mobile operation. The MVS 20 has been developed with small businesses, research chefs, offsite caterers, and culinary instructors in mind. The slim, elegant and space-saving design hides powerful performance and energy efficiency. This simple, intuitive and compact chamber vacuum machine is equipped with a water resistant digital display and simple push button control.
17.25" length x 10.75" width.

P410 \$1,548.00*

*No dealer discount for these items.

3 mil Vacuum Pouches

These bags are ideal for storage and low temperature "sous-vide" style cooking. They are rated for a temperature range of -58 to 176 °F, and have superb clarity. They can be used with chamber vacuum packaging machines P371 and P375.

Case of 1000

6" width x 8" length. 3 mil thick.
P376-6 \$44.60

Case of 1000

8" width x 12" length. 3 mil thick.
P376-8 \$89.30

Case of 500

12" width x 16" length. 3 mil thick.
P376-12 \$89.30

Cook Chill Sous Vide Label

Cook chill labels are moisture resistant and feature an adhesive designed specifically for Sous Vide cooking.

With fields for contents, prep date, use by, shelf life, cooking temperatures, and more. These labels will help chefs maintain a solid HACCP plan and ensure that items cooked Sous Vide are properly stored, cooked, and served. 500 labels. 3.25" length x 2.25" width.
U970 \$22.50

Single Slot 2" Label Dispenser

This 2" wide single slot dispenser removes label backing from the individual labels when dispensed for quick and easy application. Dispensers can stand free or be mounted on a wall for better utilization of space and works with labels sizes 2" square, 2" length x 3" width, and 2" width x 4" length; This dispensers has a lifetime guarantee. Labels sold separately (U970).
U971 \$33.00

Digital Probe Thermometer / Sous Vide Accesories

Digital Type K Thermometer

This thermometer has a splash resistant sealed membrane keypad, making it ideal for environments where liquids are used and easy to clean up. It has a minimum/maximum feature that will provide you with the lowest and highest temperatures that have registered during the thermometer's use. A hold function allows you to lock in a temperature reading for easier viewing and reads in both Celsius and Fahrenheit. The unit has a protective rubber sleeve that also acts as a tabletop stand. It accepts a "K" type probe that is not included.

U840 \$193.80

Temperature range: -418 to 2501 °F (-250 to 1372 °C).

Dimensions: 5" length x 2" width x 1" depth.

Warranty: 3 years from manufacturer.

Adhesive Tape

When cooking sous-vide, a small pointed thermometer probe is often inserted through plastic pouch and into the food to measure internal temperature. It's advisable to apply a strip of this tape on the pouch before pushing the probe through. It will help maintain the seal and pressure of the pouch. 7 feet of tape.

U839-Tape \$5.90

Hypodermic Probe with Type K Connection*

An ultra fine probe designed for penetrating soft or semi-soft materials with minimal intrusion. Great for sous-vide applications and can be used with any thermocouple thermometer that accepts type "K" connection probes.

U841 \$106.00

Type: K.

Temp. range: -418 to 600 °F (-250 to 315 °C).

Probe length: 2.5"

Diameter: 0.035".

Cable length: 2.5 ft.

*Probe should not be used while fully submerged in liquid.

Type K Hypodermic Probe for Sous Vide*

An ultra fine 2.5" probe designed for penetrating soft or semi-soft materials with minimal intrusion. It has a 40" teflon coated cable that is heat resistant to 450 °F. Great for sous-vide or any applications that require delicate work. It can be used with any thermocouple thermometer that accepts type "K" connection probes.

U980 \$236.00

*Probe should not be used while fully submerged in liquid.

PREMIUM QUALITY PEPPER MILLS

These classic pepper mills are made in Germany to an extremely high standard. The solid beech wood bodies are expertly hand finished giving the mills a clean, uniform look. The grind mechanisms are constructed from a hardened heat treated steel and fixed to the body with a high grade stainless steel shaft and clip. The adjustment knob can be tightened to a fixed position ensuring a consistent, high output, and uniform grind. The knob is knurled for improved grip during adjustments and constructed to prevent over tightening. The grind mechanism on these mills is guaranteed against defect in construction for 25 years.
